

Disintegrate Completely All the Meddling Deities in the Three Realms that Have a Hand in Interfering with Fa-Rectification

For quite some time now, the old forces and all of the meddling deities in the Three Realms that play a negative role have been having a terrible impact. Early on, when Dafa disciples were obtaining the Fa, they severely interfered with the Fa-rectification and Dafa disciples' and sentient beings' obtaining of the Fa and cultivating. Around the year 1999 they took part in, to varying degrees, the persecution of Dafa disciples, which exacerbated the terror of the already sinister circumstances, abetted the evil, and severely interfered with Fa-rectification. And, notably, at the critical time when Dafa disciples are clarifying the facts and saving the world's people and sentient beings while being persecuted, they have again taken part in preventing the world's people and sentient beings from being saved. That amounts to directly persecuting the world's people and sentient beings. Among them are so-called "gods" who control the major religions of man, and who I asked to leave the Three Realms when I first began to impart the Fa, so as to give the people of the world equal opportunities to become Dafa disciples. Some of them did leave. But a portion would not, contending that people with religious affiliations would not get involved in the affairs of Dafa disciples during the Fa-rectification period. And they have not allowed people with religious affiliations to come to know Dafa--which has gone against the principle "Open to all, only what a person truly wants matters" [that we have] when spreading the Fa--and have failed to adjust to the change in situation that occurred during Fa-rectification. Furthermore, at present they are doing all they can to prevent religious believers from learning the facts, causing the billions of people with religious affiliations to miss this chance that they have waited millennia for, and putting the sentient beings in danger of being weeded out; and they have even been directly interfering with Fa-rectification. Thus, if the world's people are to be saved, it has become an absolute necessity for Dafa disciples to completely disintegrate the old forces and all of the meddling, vile deities in the Three Realms that are hampering sentient beings' salvation and learning of the facts. No matter what outward appearance their existence may assume, whether they assume a form or not, what level they may be, or whose appearance they may take on, completely disintegrate and eliminate them all. In the process of being eliminated, they will of course have to pay for the crimes they have committed against Fa-rectification, Dafa disciples, and sentient beings. And especially when it comes to those meddling gods that control religions and are hostile towards Fa-rectification and Dafa disciples' saving of sentient beings: disintegrate them completely. Don't do anything differently when you clarify the facts to religious people, don't direct anything toward a particular group, and look only at what a person really wants and his or her own choice. Dafa disciples are to do the three things well and steadily, and not be swayed in any human way. I hope that the Dafa disciples will, by way of godly righteous thoughts, walk the last leg of their journey well.
