

Greetings

Dafa disciples around the world: Greetings!

Dafa disciples of mainland China: Happy New Year!

Fa-rectification is sure to succeed, and Dafa disciples are sure to achieve Consummation. When Heaven dictates change, no one can stop it! The Fa's rectification of the cosmos and the re-creation of heaven and earth are coming to a close. The reformation of the vast firmament is charging forward rapidly and powerfully. What do a handful of wretched creatures above or on the earth amount to? The mighty virtue of Dafa disciples gloriously illuminates the universe. What gods and man alike have awaited and worried over has arrived. Save your sentient beings, fulfill your great prehistoric vows, and make good on the pledges you made!

Let me again wish you all a happy New Year.
